THE PREMIUM LIQUID FEED SUPPLEMENT TO SUPPORT THE RESPIRATORY TRACT

Bronchopulmin is a high-concentrated herb-based liquid feed supplement designed to restore and maintain healthy and effective respiratory function and to support the immune system. Bronchopulmin contains a blend of natural ingredients, specifically chosen for their beneficial properties.

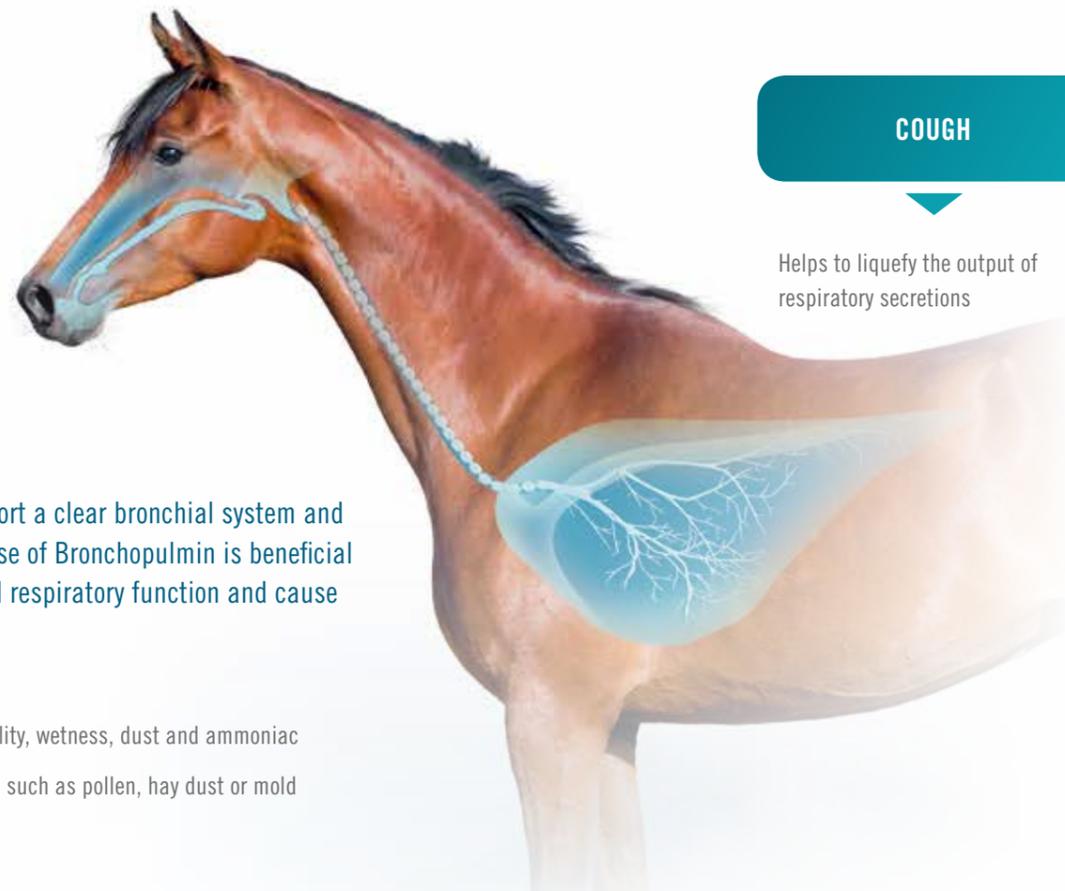

BRONCHOPULMIN

Premium herbal and vitamin formulation

- Eucalyptus oil (50,000 mg) with 85% cineol
- Black cumin oil (20,000 mg)
- Fennel oil (10,000 mg)
- Thyme oil (10,000 mg)
- Vitamin C (1,600 mg)

Bronchopulmin is suitable for horses of any age in order to support a clear bronchial system and to support all aspects of respiratory health in the airways. The use of Bronchopulmin is beneficial in case of different stress factors, which can upset physiological respiratory function and cause health and behavioural problems, like:

- Different kinds of infections
- Cold, poor air quality, wetness, dust and ammoniac
- Insufficient local and humoral immunity
- Airborne allergens such as pollen, hay dust or mold

WHY BRONCHOPULMIN?

Because it provides a quick, easy and effective support in case of respiratory disorders ...

COUGH

Helps to liquefy the output of respiratory secretions

BRONCHIAL STRESS

Encourages the relax and opening of bronchial passages to make breathing easier

PAIN

May have a relieving effect on acute respiratory inflammation and thus pain

PATHOGENS

Facilitate the cleaning effect on the upper respiratory airways

IMMUNE SYSTEM

Powerful antioxidant combination of high bio-available vitamin C, black cumin and thyme may reinforce the immune system

BRONCHOPULMIN – NATURAL RESPIRATORY SUPPORT

„We use Bronchopulmin very successfully in cases of coughs and runny noses. Because of the expectorant and anticonvulsant effect it is excellent to use as a support in respiratory tract disorders. Furthermore the immune system gets a boost from herbs and vitamin C contained in this product.”

(Official FEI-Vet. Dr. Matthias Niederhofer, Telgte, Germany)
